

# 2021 MICCAI Workshop on Advances in Simplifying Medical UltraSound

ASMUS 2021 (<https://miccai-ultrasound.github.io/#/asmus21>) provides an intellectually stimulating forum that brings together members of the international MICCAI research community who are working towards the next generation of medical ultrasound imaging methods, systems, and practices.

Papers, oral presentations, and live demonstrations featured at the workshop span AI assisted ultrasound, medical robotics, multimodality algorithms, point-of-care ultrasound, therapy guidance, global healthcare, and much more.

This workshop is the official annual meeting of the MICCAI Special Interest Group on Medical Ultrasound (<https://miccai-ultrasound.github.io/>).

Please contact Yipeng Hu [yipeng.hu@ucl.ac.uk](mailto:yipeng.hu@ucl.ac.uk) or Stephen Aylward [stephen.aylward@kitware.com](mailto:stephen.aylward@kitware.com) for further information.

# 2021 MICCAI Workshop on Advances in Simplifying Medical UltraSound

- Platinum Sponsorship**      \$1000 donation to the non-profit MICCAI Society
- 2 free registrations to the ASMUS workshop
  - Company named as a sponsor of the workshop's Best Paper and Best Demonstration awards
  - Company name and logo featured during opening remarks, awards ceremony, and closing session
  - Company name and logo featured on workshop website
  - Company name and logo featured on the workshop proceeding published by Springer

- Gold Sponsorship**      \$500 donation to the non-profit MICCAI Society
- 1 free registration to the ASMUS workshop
  - Company name and logo featured during opening remarks and closing session
  - Company name and logo featured on workshop website
